

Building Green means...

Energy savings

More to spend on the important things in life

Less maintenance

More time to spend with the ones you love

Cleaner indoor air

You and your family can breathe easier

Lowering our impact on the environment

Leave a footprint you would want your children to walk in

You might be overwhelmed at the hundreds of options you have when you look into Green Building. How do you know which ones are right for you and your family?

OBCH has researched the market and found the most cost effective Green Building solutions.

Call one of our consultants at 281-252-6100 or Email us at info@obchinc.com

- Construction Schedule
- Ongoing Building Seminars
- Energy Conservation Ideas
- In-house Owner/Builder Financing

Thousands of individuals across the country have successfully built their own homes.

"We were so pleased with our experience that we referred our daughter and son-in-law to build with OBCH."

Brian and Jan Joplin

"The thought of building our own home was intimidating to say the least. We were amazed by their professionalism and knowledge. We are now in our beautiful new home, saved over \$80,000 and could still afford Viking appliances, all granite counter tops, real wood floors and an incredible outdoor kitchen."

Al and Rene Cooper

"My wife and I thought it would be impossible to build our own home but we decided to visit with Owner Built Custom Homes anyway. Are we glad we did! They guided us throughout the entire process and we saved a ton of money. We highly recommend building your own home."

Paul and Karen Waughtal

"Being an engineer, I especially liked the fact that the OBCH program allowed me to be in total control of the decision making process. As one example of their knowledge and expertise, their recommendation on the foundation design alone saved me over \$30,000."

David and Laura Totten
